

Claimed Badges

We claim for two badges: Reusable and Available.

Reusable

As the requirement of this badge is that the artifacts are very carefully documented and well-structured to the extent that reuse and repurposing is facilitated. Our tool is very carefully documented, and the indications with pictures will be greatly helpful for the reproduction.

Available

As the requirement of this badge is that author-created artifacts relevant to this paper have been placed on a publicly accessible archival repository. So we have upload our tool to a public archival repository, it can be downloaded from [software heritage](#).

We have also prepared a VirtualBox virtual machine with all the test environment for easier reproduction. The virtual machine can be downloaded from [zenodo](#).
